Article Specification

a Sartorius printer is connected to
the balance
- Below-balance weighing equipment
- Overload protection
- Lug for attaching an antitheft locking
  device
- Leveling feet, level indicator
- AC adapter
- Built-in application programs
  (mass unit conversion, counting with
  automatic reference sample updating,
  weighing in percent, net-total
  formulation, totalizing, animal
  weighing, calculation by a factor
  (division/multiplication)
- Dust cover
==
Optional accessories:
External rechargeable
battery set   YRB05Z
Printer   YDP20-0CE
Density determination kit   YDK01LP

SARTORIUS M-Pact
AX124
The balance for all standard applica-
tions in the laboratory. Simple, safe
application due to automatic calibration
at the touch of a button. Top quality
weighing system. Backlit 14-segment
display, 2 tare keys, stability indi-
cator and 4 selectable filter levels
plus optimized display update rate
complete the picture: a balance for the
professional.
==
Weighing capacity	120	g
Readability	0.1	mg
Tare range (subtractive)	120	g
Measuring time - typical	3	s
Repeatability	<=± 0.2	mg
Linearity	<=± 0.2	mg

==
Pan size (diameter)	90	mm
Weighing chamber (WxDxH)	185x182x230	mm
Balance housing (WxDxH)	230x310x305	mm
Net weight	approx. 4.8	kg

==
Standard features/equipment supplied:
- Motorized calibration and adjustment
  function
- Bidirectional RS-232 data interface
  port
- ISO/GLP-compliant printing/recording
  of weighing and calibration data when
