Thermo Scientific Sorvall Legend Micro 17 Microcentrifuge Series with Dual Row Rotor

Accelerate routine sample preparation processes with outstanding processing power up to 16,800 xg on the Sorvall® Legend® Micro 17 microcentrifuge series.

- **Unique Dual Row rotor** provides capacity for 18 x 1.5/2 ml or 18 x 0.5 ml tubes, eliminating the need for adapters
- **Quiet performance** (<56 dBA ventilated; <50 dBA refrigerated) provides a safe, stress-free environment
- **Advanced rotor design** enables fast acceleration/deceleration with superior corrosion resistance
- **Large, bright LED display** is highly visible across the lab and intuitive controls simplify operation
- **Excellent temperature control** from pre-cool to 4 °C in less than 10 minutes on refrigerated model

Special Packages

18 x 1.5/2 ml, 18 x 0.5 ml microtubes up to 13,300 rpm/16,800 xg

	Cat. No.	Promotional Price
Sorvall Legend Micro 17R refrigerated centrifuge, 230V, with Dual Row rotor	75002443	£2,399
Sorvall Legend Micro 17 ventilated centrifuge, 230V, with Dual Row rotor	75002433	£999
